Company Description

For nearly a quarter century, Solution-Soft has been developing groundbreaking, innovative software designed to improve the lives of our clients. We believe that time sensitive testing should be done more rapidly, more securely, and more successfully. Our revolutionary TimeMachine® software has become the industry standard for its unique and pioneering time shift testing capabilities. Additionally, our essential product range that includes SafeVelocity, Safe Capacity, and GDZip + MEZip offers data transferring, data management, and file compression tools that enhance work flow safely with pin-point accuracy and unparalleled efficiency. Solution-Soft was founded in 1993 in Santa Clara, CA.

Product Profile:

Time Machine® provides software virtual clocks that enable you to time travel your applications into the future or the past, facilitating time shift testing on your date sensitive application logic, such as month end, quarter end, year end processing, billing cycle, work flow, regulatory go live, and policy life cycle.

Overview

Time Machine enables automation of date and time sensitive test cases.

Executive Summary

Ninety percent of our enterprise customers use Red Hat® solutions. Having our flagship product distributed in a certified Red Hat container lends vast amounts of credibility to our solution.

Statement from Partner

“Red Hat solutions play such a big part not only in our own processes but also those of our customers. We are thrilled with our partnership and the knowledge and expertise it helps us convey. Working with our Red Hat partners is a pleasure.”

- Raymond Watson, Director of Business Development SolutionSoft Systems Inc.

Statement from Red Hat Connect

“Customers are looking to migrate their applications to the cloud leveraging containers as the deployment model,” said Mike Werner, senior director, Global Technology Partners, Red Hat. “Red Hat container certification assures a supportable and performant platform for all types of customer deployment models. Red Hat is thrilled to work with software partners like SolutionSoft, resulting in the world’s largest commercial ecosystem for containers.”

TECHNOLOGY PARTNER

CERTIFIED TECHNOLOGY

Product Benefits

Benefits & Features:

- Save hardware and software costs
- Boost engineering team productivity
- Mitigate risks for mission-critical application failures
- Ensure large scale software projects finish on time and under budget
- Time zone adjustment
- User training

Use Cases

- Billing cycle
- Work flow
- Regulatory go live
- Policy life cycle
